

Leadership

First Midland Network Day

“Excellent to have interesting speakers and successful personalities in leadership – always motivational.”

“Great day as a refresher of leadership work and study.”

“I feel inspired and invigorated.”

“Well worth it and valuable to reinforce where others are at in similar positions – we are not alone!”

Rotorua provided the perfect day, participants were inspired, it ran like clockwork, the venue was comfortable and the food scrumptious. It all made for a successful day.

The Midland Network Days were created to give advanced leaders who had already attended leadership programmes, the opportunity to get together, to be updated with what happening in the health industry, as well as being refreshed and challenged with further leadership input.

This happened at the Royal Lakeside Novotel on 27th June. Fifty participants travelled on an ultra frosty morning from throughout the Midland DHB region to Rotorua. Eru George, Pou Herenga from Lakes DHB gave a Mihi, followed by Cathy Cooney, CEO of Lakes. She reinforced the value of working together as a region and how all the Midland leadership initiatives were inline with national strategies.

The day comprised of three key presenters:

Dr Dwayne Crombie, Chair of Workforce Development Committee on ‘Health Leadership in the Future’

Mark Sutherland, E3 Leadership on ‘Personal success and leadership’

Ali McNicoll on Peer Mentoring

Their Powerpoint presentations are available for your viewing.

From the evaluations, participants want more of the same quality so we’re onto planning the next day in November. Make sure you don’t miss it
